

**Malta's only Golf Course boasts 18 holes and is located in the central part of the island.**

## **The Course**

The course provides an ideal setting for playing golf with friends, working on your handicap or just relaxing in the beautifully maintained grounds – a quiet and green oasis in the heart of the island. The club applies a few basic rules related to dress code and course etiquette, which must be observed at all times.

PGA qualified teaching is always on call for those who wish to learn or improve their game.

The course offers 18 holes of golf in stunning, historical, landscaped grounds, which are maintained daily.

Today at par 68, the course is a good challenge for the more experienced, without being unkind to the novice.

The apparent simplicity of the course is deceptive as it is narrow demanding accuracy off the tee and controlled approach shots as the greens are small and well bunkered. Depending on the season, there is not much water on the course but a few strategically placed water hazards lie in wait.

**Royal Malta Golf Club** offers a memorable golfing experience for members and visitors to this small island in the middle of the Mediterranean. This was demonstrated in June 2013 when the Club celebrated its 125th Anniversary. Some 140 visiting golfers and supporters from 35 Royal Golf Clubs from distant parts such as Australia, Canada, New Zealand and South Africa as well as from the UK enjoyed an extensive programme of golf and social events.
